PROFILE

Junior Full-Stack Developer focused on Java backend development and Spring Boot. Experienced in developing REST APIs, CRUD applications, MySQL database integration, and consuming services from React. I also have experience in web development with WordPress, responsive adaptation, and optimization of user-oriented interfaces.

TECHNOLOGIES

- **Back-End:** Java, Spring Boot, MySQL, SQL, C#, Python.
- **Front-End:** HTML5, CSS3, JavaScript, React, TypeScript.
- **CMS:** WordPress.
- **Tools:** Android, Kotlin, Docker, Swagger, Git, Postman.

PROYECTS

Questions App (Full-Stack)

Technologies: Java, Spring Boot, React, MySQL, API REST

GitHub: https://github.com/MarioLimones/app_preguntas

- Development of a full-stack application using a layered architecture: controller, service, and repository.
- Implementation of a REST API with CRUD operations and data persistence in MySQL.
- Data validation and error handling in the backend.
- Development of a React interface to consume the API endpoints.

Task Manager (Android)

Technologies: Android, Kotlin, local persistence

GitHub: https://github.com/MarioLimones/gestor_de_tareas_android

- Development of an Android application for personal task management.
- Implementation of local storage to preserve user information.
- Design of a simple and functional interface focused on user experience.

WORK EXPERIENCE

Web Developer at Nowalia

Mar 2026 - Jun 2026

- Responsive adaptation of web pages to improve display on mobile, tablet, and desktop devices.
- Content management, interface adjustments, and visual optimization focused on user experience.
- Resolution of layout, styling, and structure issues on real web pages.
- Development and customization of web sections in WordPress using HTML, CSS, and visual theme configuration.

Aeronautical Assembler at Airbus

Sep 2023 - Jun 2024

- Assembly of aeronautical structures following technical plans and specifications.
- Teamwork in an industrial environment, developing precision, attention to detail, and problem-solving skills.

EDUCACIÓN

Core Networks

Sep 2024 - Jun 2026

Higher Technician in Cross-Platform Application Development

IES San José de la Rinconada

Sep 2022 - Jun 2024

Technician in Assembly of Structures and Installation of Aeronautical Systems.
